

# Golf & Spa Resort Konopiště

## Resort description

Golf & Spa Resort Konopiště is situated in the central Czech region, only 50 km from Prague. Here you will find two championship 18-hole 72 par golf courses. The first one is named "Radecký", the second one "d'Este". A 9-hole 29 par Public Course is open for amateur players.

The „Radecký“ course was built in a slightly wavy landscape. It has sandy bunkers, water obstacles and fully-grown trees. This golf course offers top-quality and clearly arranged fairways and that makes it suitable for less advanced players and for handicap reduction game. The „d'Este“ course is more open. It spreads in the fields, it has lower trees and is surrounded by tall grass. All greens are large, all fairways are well kept and spacious. The hole number 9 has an island green and the difficult number 18 hole finishes between water and trees. The Public Course can be played by non-green card holders as well. The course is long, suitable for beginners, less advanced players and children. There are sandy bunkers and a water obstacle on the course. The resort offers a rental shop with golf gear, a driving range with covered teeing grounds, putting and chipping greens, a pitching area and training bunkers. Visitors can attend training courses with our professional coaches, visit two restaurants, a wellness center, and get stylish accommodation in a castle or the surrounding buildings. There is also a large-capacity parking. In the vicinity of the resort there are top-quality bike tracks. The golf club arranges hot air balloon rides or trips to Konopiště and Jemniště castles. During winter season the resort runs a 300-m-long illuminated skiing slope and high-quality maintained cross-country skiing tracks.
