

Trutnov Trails

Resort description

A network of one-way terrain trails for mountain bikes in the vicinity of Trutnov in the area of Čížkovy kameny (Čížek Stones) and the Hawk Mountains (Czech: Jestřebí hory) offering 17 km of single nature trails of various difficulty levels. The rolling landscape in the foothills of our highest mountains, the landscape full of boulders, rocks and beautiful forests is an ideal place for that activity.

The Trutnov Trails consist of four trails for proficient cyclists. What is very interesting about this place is the changeable character of the local hilly countryside, which is full of sandstone boulders, rocks, forests and meadows and is, therefore, a perfect place for mountain cycling. All trails start in the Trailcentre. It is situated in the village of Lhota u Trutnova in the building of the local pub. It offers information on the trails and a map. Another starting point is the car park under Sedmidomí. We recommend the golden mean for the descent - in this case the red trail (called the Larch Trail), and only for very good cyclists. The ascent from both Lhota u Trutnova and the car park under Sedmidomí to the starting point of the trails of various difficulty levels is very demanding and includes a big elevation difference.

Destinations	East Bohemia
Route	17 km 3 hours
Surface	Demanding rocky surface intended for mountain bikes.
Activity type	Singletrack
